In August 2017 IQUII Sport has been launched, the Business Unit designed to study and deepen four Sport Industry areas:

SPORT MARKETING & FAN ENGAGEMENT

Understanding main stakeholders' strategies and anticipating Sport Industry trends, to engage the fan inside and outside the venue with membership, loyalty, proximity and sport retail strategies.

INNOVATION TECHNOLOGY & SPORT PLATFORMS

Outlining the relationship between sport and new technologies, deepening CRM and membership platform development studying technologies for clubs, associations and sports events.

DATA MONETIZATION

Developing data-driven strategies to support stakeholders, aiming to create value from data both directly and indirectly, and integrating online and offline touchpoints.

INSIGHTS & REPORTS

Collecting and analysing data, producing reports and infographics about clubs, players, events and the new eSports scenario.

Nowadays, the implementation of a strategy needs to be planned with a data-driven approach.

With this in mind, our three reports were born: "**The European Football Club**" Report for football, "**The Basketball League**" Report for basketball and "**The Volleyball League**" Report for volleyball. These studies deal with the presence of the main stakeholders of the related sports on social media, highlighting variations and overtakes on a monthly basis.

The aim of IQUII Sport is to realize and to offer tools supporting clubs, brands and athletes in the acquisition, engagement, loyalty and monetization of their own fanbases.
